

DRAIN SAFE

Drainage geocomposite made by an high-density polyethylene mesh tridimensional geonet, coupled on both sides to a filtering non-woven geotextile.

Characteristic	value	Unit of measure	Unit of measure
Height	2	m	
Lenght	25/50	m	
Mass per unit area	890	g/mq	EN ISO 9864
Thickness 20 kPa / 200 kPa	5,8 / 5,2	mm	EN 9863-1
Tensile strenght MD/CD	20 / 17	kN/m	EN ISO 10319
Elongation at max load MD/CD	40 / 50	%	EN ISO 10319
Dynamic puncture resistance	10	mm	EN ISO 13433
Static puncture resistance	3,6	kN	EN ISO 12236
Draining capacity in the plane 20 kPa/200 kPa	1,16 / 0,74	Hard-Hard	EN ISO 12958
